

FM fan

High efficiency fan for the FM filter range

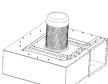

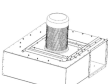

The FM fan range is designed exclusively for direct mounting to the clean air chamber of the FM filter units.

The FM fans are designed for high efficiency with low noise levels and are of the non-over-loading type. This gives a safe and reliable system with minimal power consumption when under reduced loads. The fans are only available in RD version..

Product name	FM fan
Installation	[Indoor], [Outdoor]
Material	Galv. steel, 2 mm (FM1000 = 4 mm)
Frequency (Hz)	50
No of phases	3
