

## High Vacuum Pipes

High vacuum pipes for a wide range of applications.

---

Galvanised steel pipes, used as main pipes.

Can be used for:

- 
- Extraction of fumes from welding torches.
  - Extraction of grinding dust directly from the handheld grinding machine thanks to our range of manifolds that matches most handheld machines on the market.
  - Cleaning of floors and machines etc. with our wide choice of accessories.
  - Transport of large volumes of material which may be both heavy and abrasive.
