

Industrial vacuum cleaner 690S

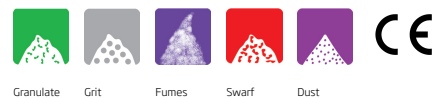

Powerful heavy duty electric powered dry vacuum cleaner for general cleaning

Very powerful electric powered industrial dry vacuum cleaner suitable for general cleaning, extraction of dust from grinding machines and for powder transportation. The dry vacuum filter and cleaning system provides a long interval between filter exchange which improves the productivity. Thermal overload fitted as standard. Plastic bag included.

- Manual filter cleaning prolongs the filter's lifetime.
- Very powerful dry vacuum.
- Equipped with HEPA filter.

Product name	Industrial vacuum cleaner 690S
Protection class	IP 54
Installation	Outdoor, Indoor
Application	Dust, Granulate, Grit, Fumes, Swarf
Dustbin volume (l)	47
Filter Area (m ²)	1,1+1,6 (control filter)
Power Voltage (V)	400/690
Max airflow (m ³ /h)	639
Working pressure (kPa)	-30
Noise level (dB(A))	78
Weight (kg)	135
Power (kW)	5,5

Granulate Grit Fumes Swarf Dust
