

Static dissipative hose

The hose is constructed of a medium weight clear static dissipative polyurethane reinforced with a bronze coated spring steel wire helix

The static dissipative hose provides great abrasion resistance and high tear strength as well as superior chemical resistance, excellent flexibility, and tolerance for applications with wide temperature ranges (-65° F to 225° F).

- Sold in 5 lengths, examples 5', 10', 15'.

Suitable markets (Nordfab)	Americas, South America
Material	Polyurethane
Length (unit)	in
