

Vacuumblander 418A/460A

Air powered mobile dustless abrasive blasting equipment with superior productivity, suction power and separation efficiency.

418A

Nederman Vacuum Blaster units are suitable for different purposes and applications, and have superior suction power and separation efficiency. The units are based on pressure vessels in combination with compressed air filters and pressure regulators that ensure sufficient speed of operation in a dust free environment. Nederman has been operating in the field of environmental equipment for more than 60 years, and has extensive experience in equipment and systems for blasting applications. The Vacuum Blaster comes complete, mounted on a trolley with a grit separator, silo with an internal sieve, filling valve, efficient vacuum producer and compressed air filters. A pneumatic valve in the bottom of the silo empties the dust into a plastic bag. Furthermore, the unit is equipped with a pneumatic control device for automatic filter cleaning. The Vacuum Blaster also comes with a 10 m hose with a blasting and suction head. The capacity of the vacuum unit is determined by the maximum blast pressure and the type of blasting abrasive used. The sieve ensures that bigger extracted particles can not enter into the blast vessel. The filling cone is pushed up by the blasting abrasive and the lid above it ensures sufficient clearance to eject the abrasive.

- User friendly
- Lower costs
- Healthier work environment
- Mobile

Product name	Vacuumblander 418A/460A
Compressed air consumption	2 bar = 2,9 Nm ³ /min 3 bar = 3,2 Nm ³ /min 4 bar = 3,5 Nm ³ /min 5 bar = 3,9 Nm ³ /min
Material	Robust steel construction
Application	[granulate]
Working pressure (kPa)	42
Max Airflow (m ³ /h)	360
Hose length (m)	10
Number of filter elements	36

Vacuumblander 418A/460A

Image	Description	Weight (kg)	Model
	Blasting unit 418A, 18 l blastingpot	235	40056607
	Blasting unit 460A, 60l blastingpot	270	40056608
