

PRODUCT LEAFLET

Extraction Arm Telescopic

The arm is flexible in all directions and simple to position and to extend

Extraction Arm Telescopic

- ✓ The arm has a balanced telescopic action by an adjustable balance block
- ✓ The product is suspended by a swivel, which allows the product to rotate 360 degrees
- ✓ The product is suspended by a swivel, which allows the product to rotate 360 degrees

The Nederman Telescopic arm is specially designed for working environments with fumes, vapours or non explosive dust, where the space is limited. Typical workplaces can be welding schools or for production in small welding booths, or other industrial processes where a small, easily positioned arm is required. The reach of the arm is between 0.9 and 1.6m (3 and 5 ft).
