

PRODUCT LEAFLET

722A

Powerful dust collector with pre separator

722A

- ✓ High vacuum and airflow
- ✓ Dust separation from grit and granulates
- ✓ Efficient self-cleaning NCF filter

An extremely powerful vacuum unit for the collection of blasting grit and other granulated material. The combination of high vacuum and high airflow make material transport over long distance possible. Compact design, built on a frame with the possibility of transportation by forklift. Equipped with grit and dust separator. The clean grit is collected in a silo and can be re-used. The dust is trapped in a high efficient NCF filter and discharged into a dustbin or bag.
