

PRODUCT LEAFLET

# 710A

Dust collector with pre-separator for grit recovery

# 710A

- ✓ Extremely high vacuum for suction of heavy material over long horizontal and vertical distances-
- ✓ Dust separation from collected granules and grit
- ✓ Automatic filter cleaning and silo discharge

This robust and extremely powerful system is designed for the recovery of blasting shot. Equipped with automatic pneumatic pinch valve and automatic self-cleaning NCF filter. Most of the dust is separated from the blasting shot or from the collected granulates. The dust is channelled into its own container, while the blasting shot or granulated material is fed back into the blasting pot, onto conveyors or into other containers.
